**Putin, Medvedev, Russia, Media, BRIC-countries,**

## **I agree with the establishment of an Euro-Asia-Union for Eastern-European countries.**

**But you have to set an example to EU.**

### **Meaning:**

EA-union must be a small entrepreneurship where laws & treaties are being synchronized.  
The law & treaty-unit must also punish countries who refuse to build their economy on Human Rights.

You leave out 'the money-shovel-system', because the way EU shovels money around between countries causes shortages, bankruptcies, the wrong organisations receive fundings for the wrong reasons..  
Of course, countries need aid - for agriculture, healthcare..etc. - but this must be organized at Tops, especially started to solve a specific problem.  
These tops must be held in every country of the EA-union, what will improve the New-Legal-Frames needed, locally & internationally.

Every country must be legally obliged to open a website on which they publish all their EA-union activities.  
Talks, law-making, punishment, money-shovel, bankruptcies of organisations financed with EAU-money.

EAU doesn't judge on war-making-activities = no sanctions against countries...and no advice 'to start a war for peace'.  
Sanctions will be unneeded when every individual country must present an annual report on 'how they build their economy in HR'.  
Punish for ingoring legal obligation when HRs are not conducted = this will do the job.

A punishment must be 'that 1 EAU-country finances the needs of another EAU-country'.  
If impossible, there must be a financial contribution to the law & treaty-unit.

**African union, Russia, China, Brasil, India, Buckingham palace,**

Again, ICC only judges against 'black African leaders'.  
Now ICC starts another investigation in Ivorycoast...again.

Stop this maddess!  
It causes more Arab-wars.

And don't forget that PVV-Gert Wilders want israel to attack the nuclear-powerstation in Iran =  
EU-disaster we can't cope with.

NL-media is playing games with human lives in warzone.  
They still refuse to tell the truth about ICC, although they do accept my ICC-case....but they prefer to  
protect criminal ICC-prosecutors & judges.

Send judges from South-Africa ...or so to Ivory-coast in order 'to assist the building of an Ivorycoast-  
courtsystem  
that can judge on Crimes against Humanity, committed by AU-leaders & person'.

**Nobelpeaceprize, Martti Ahtisaari,**

I strongly feel that **Nobody** should win the Nobelpeaceprize 2011.

The Nobelfoundation has to make a clear statement towards EU-leaders who have EU-civilians  
tortured & killed  
by the International Criminal Court.

When you organize a Gala-concert for the Winner, this will also be a reward for all Presidents & MPs  
- and also for UN, Ban Kimoon, EU & Nato - for violating Human Rights, starting illegal wars,  
knowing that they can't be punished.....  
and participating in ICC-killings.

The General Assembly of the UN decides on 'who must be brought to Court as a criminal ...and which  
Victims have to die for it'.  
Than they call EU & Nato...to make sure everybody puts in the same vote.

**The Nobelpeaceprize has become a very 'corrupt' prize.**

The persons who nominate a possible Winner...are never the persons who want to stop corruption  
within

UN, EU...International Courtssystems.

I believe that the system for nomination has to change.

Only people who present legally valid evidence may be nominated by an outsider.... or may nominate themselves,

on the condition that the complete - legal - file is published on the Web.

Nomination yourself is a bit strange.....It feels 'narcistic'.

But it brings more justice & honesty to the power of the prize.

**The Nobelpeaceprize must be 'a boots for the newlegalframes Earth needs'.**

Or, when you give the prize to Julian Assange, you must make clear that he has to share it with

UK-soldier Bradley Manning,

who is now being tortured by Obama & Clinton ...for 'supposed leaking info to Wikileaks'.

The whole situation is sick.
