**Egypt**, I know you have apologized to women for the fact that military-personel has beaten women up during a street-protest.

There is a simple solution.

I believe your should be a Trendsetter and open a Forum for Women only.

And give women the opportunity to express their needs, politicially & socially, without violence.

The only tough rule is:

'Don't complaint, telll us what you need... and make clear how you want to live in Egypt'.
