BRICS, N-Korea, S-korea Buckingham palace, IAEA, NCVO, NLF-readers, Mikhail Prokhorov, Kuwait, Secret Services,

Kim Jong-un,

As you now, the NL-tv broadcasted a small docu on the fact that NL-compagnies do business with N-Korea, Yesterday.

http://www.eenvandaag.nl/economie/39462/noord_korea_maakt_onze_kleding_en_tekenfilms

Famous retailers on NL buy your stocks... or have their designs produced in N-Korea.

I sincerely hope, that you wil help me 'to stop civil war in NL'.

We are in a civil war too, as you know for about 2 years.
ICC- lies are going to explode in our face.

I believe that trade is a good platform to start on.
We - N-korea & NL - must have transparant trade-flows, so N-Korea can become part of prosperity as soon as possible.

I also think that we've got scientist who can actually assist you with watermanagement & agriculture.
First you need to grow food four your own people.

Politicians need to stop talking about war... and implement Human right-treaties for all of us on Earth.
In USA 49 million people are starving, NL courtssystem are 100% corrupt in 2012... etc...

We need a new planet, without those wars.
