Kim Yong-nam, I am sorry to hear your father died.

Despite your Swiss-education you are still a very young man, with a Giga-Galaxy job ahead of you.

As you know 'I am not exactly charmed by the works of UN, EU, Nato & ICC'.
And the Kremlin, Asia, IAEA... and many others are not Holy to me either.
Somehow it must be destined.

I'd like to help you start.

My plan for 2012 is to explain to young adults in NL 'how they can gain judicial power back from EU & UN'.

I have this plan for years, but the terrorism-threat in NL - caused by ICC - and the fact that ICC tries to murder me, demands a lot of my time.
Besides, it looks as if the Young adults overhere need an Al Qaida terrorism-attack before they take up lawbooks & treaties to organize their 1-persons-toko with.

In 2012 I shall include you in my emails and publish these emails on my website.

I wish you 'the Best of luck & wisdom, with loads of Energy for 2012'.
