Malalai....daughter....,

According to the NL-parliament NGOs are going to assist NATO in Uruzgan.
Save the children is one of those NGOs.

You probably think: 'Better something than nothing'.
No daughter, that's not how the system works....

What you don't know is that many employees of the Ministry of Defence resign ...and try to find themselves a more comfortable job.
First, they create more poverty & war in Afghanistan on command of NATO. And USA...
Second, they are aware of the chaos they create - and the fact that there's nothing to win in Afghanistan - so 'they run away' before you can start a lawcase as an Afghanistan-civilian against NL with ICC & ICJ.... to undo destruction...

NL - NGOs don't want to acknowledge my ICC-case against the NL-parliament.
They don't want to change policies, therefore victims of war & economical fiasco's will not get a chance to claim their rights within an international courtroom.

What can you ask Save the Children to do?
They can start a survey on standards-for-living for kids.
Create a startingpoint for the future.
But, when they don't want to work with Human Right-treaties against Europe chances that Afghanistan -residents will be able to claim some rights within the EU & UN in the nearby future will be minimalized too.

When you start to talk with NGOs from Europe, bring the texts of the Human right-treaties with you!

It's a frustration shitt-job.
You have to repeat yourself a million times...and will get nothing in return...

O.... Malalai....
Human Right Watch & Amnesty International refuse to investigate on war-crimes committed by Prosecutor & President of ICC...

Good luck to you girl,
