Open Brief / Open Letter

to

-Malalai Joya in President-talk on 14 may 2009 -

Dear Malalai,

The Universe is with you....but its only for a limit period of time.
You are waisting your moment in life.

Think with me....and accept it...!

- ICC is still free to be a Lobby- & Assinationcentre
- USA sends more troops to Afghan/Pakistan, which will result in more attacks on NATO.
USA can build Justice today, by 'closing down Hitler-court ICC and turn it into a fair Court of law, but they only send me 'flyers per email in respons on my messages to the Whitehouse'.
- Iran has a Female candidate for President?
I can't find her on the web, but I need her to become President of Iran.
This will also open up Irak/ Syria / Palestina for the rest of the world.
Political talks need more EQ-moods.
- All these activities will not bring Peace to Earth, as long ICC builds war.
Africa turns away from ICC & NGOs. Africa want fair business-deals, not NGOs.
- I want Afghan/Pakistan/ Iran/ Palestina 'to start with the **Dutch corporate governance code**'.

Why?

NL & ICC break down **aces to Int. Courts of Law in NL....** and even Worldwide.

Council of Europe & EU don't do anything against the war-activities of NL'.

There will be a new political party called 'Solidara = non-discrimination ', but they are not smart enough to understand what my ICC-case against NL is about... They are working on it!

The breaking down of acces to International law is in hands of about 10.000 dictators in NL

= Trade unions, multinationals ...enz... included...

These 10.000 dictators 'should implement 'the Dutch corporate governance code' on a daily basis, but they only talk about implementation itself... as long its only a code instead of a Labour-law'.

Do you get the image?

- **Malalai, you MUST do what NL-entrepreneurs fail to do**
= Implement the DCG-code in your talks, negatiations & contracts ... on a daily basis...
Build a DCG-system in Afghan.

Never 'protest against activities of NL-dictators on the streets'

= A waist of valuable time

= They are not going to change their behavior as long as you don't make them change...with their own methods...

= When they misuse the implementation-period of DCG as a cover for the break down of acces to Int.law & Court-system for simple people, you MUST use your implementation-time for the building of the GOOD-practice.

Good luck to you girl,
