Update for your Drivers for Love....

16 october 2008

Malalai....daughter...,

You know Me.

When its time to install or update new Drivers for Love, this is usually inherent to a new Outburst of War.

First

I have to say something that sounds nasty in your brain:
'Don't feel happy or relieved when you receive an award for your work'.

You are aware of the fact that NGOs you try to work with in Afghanistan 'can cause more harm than they heal with Good Practice'. Unfortunately, this is caused by Old-fashion-business-policies. NGOs live in memories far too long. Most awards are grounded in Old-fashion ideas about aid-work = they refuse to work with lawbooks in their hands, next to food aid, agriculture, education. military intervention...enz...

You get aid, but not the legal constructions to make sure that you can become self-supporting.
Think about this, next time you receive a prize.

Personally, I feel relieved about the fact that the Nobelprize-winner 2008 is Martti Ahtisaari.
And not a Chinees 'fighting for human rights'.
I can't travel to China, but even from here I can discover a 'good system for talks for Fair trade & Eko in Asia'. One can talk about everything as long as both parties 'give & take'. China can buy the Netherlands now, there's a crisis... I Love it!

O, you don't have to worry about that crisis. When the media ignores the complete Financial world for 1 month 'business is solid as a rock, even better than ever before'. Big money-makers want to cause panic on the stock-exchange so they can catch BIG MONEY again within a few weeks, to become even bigger'.

Second

NL is going to increase war in Afghanistan.
There are already working on it.

I had to press charges with ICC against Maxime Verhagen - Min Foreign Affairs - now ALL Politicians, NGOs & AVOs ignore whats going on between UN & ICC. My websites are open for almost 3 years. ALL terrorists are reading them. Thus when éverybody' ignores me this proves 'that they want to make terrorism, Worldwide. NL has to be lawless for this, so they turn NL into a lawless country too'.

I don't expect Rob de Wijk HCSS to stop his war-makers-activities
= He only has to write me to letter needed to stop it, but he refuse to do so.
= I think he is going to intensify his lies about NL, UN, EU, NATO & ICC in the Baltic States.
I am going to put him in ICC-prison for it, 2 nov 2008.

Aghanistan has to become much thougher!
Demands contracts with NL.
Publish these contracts on the Web, so nobody can lie about the contents.

You have to pay attention to www.woccu.org, who provides in micro-finances on instruction of MPs.
Think twice before you accept money in the name of NL.

Third

ICC is 100% corrupt, but I try to make judges go to work.
There are NO systems at all = not for the Office of Prosecutors, not for the Presidency and not for the Court. This is why NL AVOS & NGOs continue to create lawless lives. 'They can't be punished for it'.

Its all over the same again...

As soon as war-criminals believe 'they can't be punished by ICC, they intensify their war-crimes. NL does!

Its up to foreigners to stop ICC. Interpol, FBI...and even Devil Paul McCartney.

You know Malalai, Paul is a good example of EU-Love.

He pretends to help me, pretends to want to stop ICC-connected war-crimes.

Refuses to do the necessary talks for it.

Believes he knows everything better, because he has money and can buy all people he need.

Becomes frustrated when a war-victims - Me, Myself & I - proves he produces bull-shittt that causes more harm...

And than? Well, than he starts to implement the war-crimes he once wanted to ban together with Me..., but this time against Me.

I expect Paul 'to become a bastard who implements identical policies as NL NGOs & AVOs from my file do'. He already ignores Me. Growing unhappily in self-pitty, shock, popularity, money, outrage... and disappear...

Being a true creep is not his nature, but now he is linked to ICC in a negative way 'he must give it a try'. The man Loves try-outs.

If he doesn't write me a letter that proves that he did not have the intention to mislead & misuse me with me ICC-case for his security-policies, I will put him in ICC-prison on 2 january 2009. NO joke.

Paul is going to cause trouble for UK in Afghanistan with his try-out...

He doesn't want to learn, Malalai.

He think 'that the people he can buy with his money are more important than I am'.

What will happen when ICC is 100% corrupt?

In this scenario, much depends on fairness in Russia, Middle-East & Africa.

Russia can stop wars, Africa can stop business deals that violate human rights on African soil.

USA is only going to change if Barack Obama becomes president.

Asia can stabilize import / export = get hystery out of the stock-exchange or the real-estate market.

Middle-east can take advantage of it, when they start to build local NLFs to dutch example.

Whats in it for you?

The weaker ICC is, the more possibilities it will gives you to start a lawcase with ICC, you can win!

Definition of weak: ICC is partial to NL, UN, EU & NATO.

You - Afghan-parliament - ICC.

Build your file for this construction.

And publish it!!!!

What needs to happen before you start to believe me on this matter?

Waiting for Camp Holland to give you a laptop, or so...!? Godverdomme!

If you want to survive your lawcases - win - you have to publish ALL truth in writing, especially when its linked to NL, UN, EU... Dutch MPs are not going to rescue you.

Good luck to you girl,
