Malalai....daughter...,

On the day I give you acces to the Universe, it will only be for the traineeship for Goddess of Neutralization.

You have to learn to become a neutralizer while living in war. More woman have managed, so will you.

Entrance-exam

- Write a definition for 'neutralization'
- Describe your role in it
- Make a list of tools available to you
- Set personal goals for life
(Don't be stupid. Goal for life: 'I want to be a member of parliament again', is unrealistic) .
- Take a startingpoint. Start to work from it; its you individual commitment to the Universe = EQ
- Stick to your promiss for the better and the worse
- When you pass your exam, the Universe shows it to you
- I shall know when you can get acces, and what you have to do next

Oké.... Its not painless!

For example. Between Paul mcCartney & Myself a mistake is already made.

I have to write him a NON-Love-letter. Yesterday spend 6 hours on it. Hel, headaches. Why?

Because there was Love between us over the past few months. I want his Love, not his war.

But when he doesn't understand psychopatic rituals that cause war between him & Me, I have to explain it to him. NO Goddess upstairs who can take this task from Me...or him. We get knowledge for free...and we have to make it work ourselves. First, he & I have to make it together, later the World will adjust... Pain is movement to more EQ.

My instructions to you, daughter:

- Karzai has created more war in Afghanistan recently. He asks EU for 50 billion. This week we learn that he will invest the money in a war against Pakistan. Megalomania: he copies the psychopatic rituals of EU & UN. Result? Terrorists grow in number and power in Afghanistan.
- Karzai seems to forget that Afghanistan is a member of the Statute of Rome, implying 'Karzai can be brought to ICC - by simple Afghanistani - for being a dictator'.
- I want you to start from ICC = build a file to protect yourself
- I started from my 1-persons-toko, have visited every court available in NL before I turned to ICC. You can't do this!
- You have to start from ICC = course 'simple thinking & EQ-building'
 - Read the Statute of Rome. Choose articles/codes from it you want to use to protect yourself.
 - Read other official ICC-documents like 'Evidence & Procedures'. Choose what you need. Enzovoorts...
 - Take the Afghanistan laws, available to you. Relate them to ICC.
 - Start to collect evidence. Write letters/ emails, in which you refer to legal obligations of organisations & individuals. NGOs & AVOs don't do this, because they are too lazy...or too corrupt... When its impossible to send letters by mail/email, send Open Letters like I do.
- It will take 1 year to build your file. Than we talk again.

Malalai... my instructions to you are 'timelimited', meaning:

'You will be very successful when you follow up on my instructions, on the timeline given to you = what I tell you today, has to be started today'.

Good luck to you girl,
