Open Brief / Open Letter

to

-Malalai Joya in woman-talk on 8 april 2009 -

Dear Malalai,

Your website was off-line for a few days.
.... And... you are ready to publish photo's of your work and contacts...

Have you come to terms with the New Political Elan, now Obama is Presidents of USA?
Read my: 'Worlds' Presidents go for Happy Dictatorships'.

- I'm going to make a list of all behavior of Presidents we don't need!

www.stop-discrimination.info

- You are NOT recognized as a winner of an International Anti-discrimination award on this website of the EU.
- Blackmail?
- I did send them an email on my ICC-case....

I have explained about the dirty systems NL uses to get investments back from vulnarable people. What to do against it?

- Publish all agreements you close with NL & other nations
 - Outline 'why you have to accept this money for your survival'.
- Explain the world:
 - How much money you get for which goals for life & economical targets
 - Who can work with this investments
 - Results of investments
 - EQ-needs
 - Business-needs: procedures, finances, justice, technology, education, websites
 - Bureaucracy imposed on you from EU, UN & NATO
 - Afghan-bureaucracy = Do's and Don'ts!
 - Failures in current business-systems you use
 - Consequences for personel and Afghanistan
 - When you start to make profits = How do you re-invest these in Afghanistan?
- Responses of investors on your results & information

This method is the only way to protect yourself.

Store all the information you collect.

When NL & EU start to use Afghanistan as a **dump-place** for redundant stocks or industrial-waste -- and Afghan-businesses go bankrupt because of this -- you can prove 'that NL & EU want their investments back in a very dirty way' = you build yourself a file for a lawcase within ICJ.

We arrived in a new political period

**BLACKMAIL-deals in Presidnt's Offices while making civilians lawless...on purpose...
Earth has a HUGH problem when Barack Obama wants to work together with UN, while he knows the UN Ban Kimoon supports the war-crimes of ICC-employees.**

There's a 'hidden black-list' of suspects/perpatrators/dictators hidden somewhere in UN & ICC = these individuals have to appear in ICC-courtroom for political-reasons

Good luck to you girl,
