Question/Comment: Terrorismdanger thanks to Paul mcCartney.

<http://www.newlegalframe.com/NLFbehaviorPaulmcCartney.html>

There is an official lawcase against Paul mcCartney with the International Criminal court = slavery & torture of warvictims.

This lawcase is recognized bij Downingstreet 10 & Buckingham palace UK.

When Paul mcCartney accepts this prize, this will result in more death soldiers in Afghanistan...and other warzones.

Obama is a dangerous president

= I asked him many times 'to stop the warcrimes that take place within the International Criminal Court itself', but he refuses.

Obama wants ICC to be a Hitlercourt, because he wants to be friends with NL-parliament...for more war...

So , Moslims know that Obama wants war....and supports Paul mcCartney... who only wants to enrich himself at the cost of the lives of lawless people.... Persons who can't defend themselves against his rude & crude business-mentality.

He misuses my lawcase with ICC against the Netherlands for more money on his bancaccount only.

I believe you have 2 options:

1. You ask mcCartney to undo his mistakes in connection with me = see my leeters to Downingstreet 10 & Buckingham palace om mmy site .

2. You present yourself as 'a warcriminal-supporter'.

Don't turn yourself in a criminal!
Many people are going to die for your mistakes.
